A little room to create.

Good work often starts with a simple page. This one is yours to annotate, arrange, and make a little more useful.

THE IDEA

A clearer document.

A few thoughtful changes can make a document easier to read, recognize, and share.

A FEW THINGS TO TRY

02

Make it yours

Add a watermark or recurring footer.

03

Find the flow

Reorder pages, then save a fresh copy.

Nothing precious here. Experiment freely, and download a new copy when it feels right.
